

ABOUT HISA PODLOG

In picturesque location in the heart of Kozjansko region, surrounded by raw nature, you find our unique event venue and culture residency. Together with our local partners we make once in a life time experiences, anything from weddings to private events. Placed underneath the mountain of Bohor (Slovenia), bordering on the Eastern Slovene Prealps and typical Pannonian landscape, a small farm estate carrying the name 'Znoj' (l.t. Sweat) was occupied since approx. 1900. The name and the farm-house are probably the true indicators of the conditions first owners were battling with.
